### CUSTOMIZED CARE

St. Paul's PACE participants receive tailored medical care from the finest professionals who specialize in aging and chronic conditions. Our medical team works with therapists, dieticians, social workers, and home care nurses to create a customized care plan for each St. Paul's PACE participant to ensure optimal health, safety, and well-being.

Participants receive all health care including primary and specialist services (other than emergency services) from St. Paul's PACE or a contracted provider authorized by St. Paul's PACE. Participants may be fully and personally liable for the costs of unauthorized, out-of-network services.
